Condensed Interim Consolidated Financial Statements of

GLACIER MEDIA INC.

Three and six months ended June 30, 2014
(Unaudited)

President's Message

Summary

Glacier Media Inc. ("Glacier" or the "Company") continued to realize strong improvements in profit growth in the second quarter of 2014. Consolidated EBITDA grew 12.6% compared to the same quarter in the prior year on an adjusted basis (to be comparable with previous accounting standards and reporting)[1]. The performance was the result of a variety of sales and product development initiatives that resulted in increased sales of higher margin products, complemented by targeted cost reductions. These results are being driven through a broader strategy of value enhancement initiatives the Company has been pursuing to increase shareholder value (see following). This strategy is geared to evolving and transforming the Company's businesses, increasing profitability and reducing leverage.

Within the business information group, revenue growth was achieved in a wide variety of the verticals in which Glacier operates and an array of products offered within these sectors. Management is investing in a number of these verticals to develop new rich information and specialty data tools, designed to heighten customer retention levels and create premium revenue streams and offer more comprehensive and sophisticated marketing solutions.

Improvements in community media performance continued in the quarter as the result of cost reductions, increased new advertising supplements and products, increased printing revenues, as well as a focus on developing new digital products that can be readily monetized to deliver profitable revenue streams. The revenues and profits from these areas are helping offset maturation risks associated with traditional newspaper publishing. Many of these initiatives are also "multi-platform" in nature, in that they form part of integrated solutions offered to Glacier's client base. On a consolidated adjusted basis[1], Glacier's community media EBITDA for the second quarter grew more than 10% compared to the prior year.

The Company continues to assess its asset mix with a view to consolidating and narrowing its focus on areas that can deliver the best growth opportunities.

	Three months ended June 30, 2014 [1]	2013 [1]	Variance %	Six months ended June 30, 2014 [1]	2013 [1]	Variance %
Revenue	$ 86,900	$ 89,070	-2.4%	$ 163,795	$ 165,910	-1.3%

Weighted average shares outstanding, net	89,083,105	89,234,311		89,083,105	89,238,682	

Notes:
(1) Refer to "Non-IFRS Measures" section for calculation of non-IFRS measures used in this table.
(2) Adjusted 2014 excludes $1.3 million of restructuring expense, $0.5 million of transaction and transition costs, $0.6 million of other income and $0.7 million of other expenses.
(3) For non-recurring items excluded in the prior period, refer to previously reported financial statements.
(4) Calculated as consolidated debt net of cash outstanding before deferred financing charges and other expenses.

Key Financial Highlights [1]

- For the quarter ended June 30, 2014, adjusted consolidated earnings before interest taxes, depreciation and amortization (EBITDA) increased 12.6% to $15.1 million from $13.4 million for the same period in the prior year;
- The Company's adjusted EBITDA margin improved to 17.3% from 15.0%;
- For the quarter ended June 30, 2014, adjusted consolidated revenues declined 2.4% to $86.9 million as compared to $89.1 million generated in the same quarter of the prior year;
- Adjusted cash flow from operations (before changes in non-cash operating accounts and non-recurring items) increased 8.5% to $14.9 million over the same period in the prior year;
- Adjusted net income attributable to common shareholders before non-recurring items grew 32.4% to $5.9 million for the quarter from $4.4 million for the same quarter in the prior year;

- Adjusted EBITDA per share increased 13.3% to $0.17 per share from $0.15 per share for the quarter compared to the same quarter in the prior year;

- Adjusted cash flow from operations per share (before changes in non-cash operating accounts and non-recurring items) increased to $0.17 per share from $0.15 per for the same quarter in the prior year;

- Adjusted net income attributable to common shareholders per share before non-recurring items grew 40.0% to $0.07 per share from the same quarter in the prior year; and

- Continued progress was made in reducing leverage, with adjusted consolidated debt net of cash outstanding before deferred financing charges and other expenses being lowered to 2.1x trailing 12 months EBITDA as at June 30, 2014.

Note:

(1) Prior to January 1, 2013 the Company consolidated the financial results of its joint ventures on a proportionate basis in accordance with then applicable accounting standards. Since January 1, 2013, the Company has been required to report the financial results of its joint ventures using equity accounting under the new IFRS accounting standards. The adjusted consolidated financial results reported have been adjusted to reflect the proportionate accounting basis used prior to January 1, 2013 for purposes of comparability in reporting. These results include non-IFRS measures such as EBITDA, cash flow from operations and net income attributable to common shareholders before non-recurring items, and are presented on a basis that includes the Company's share of revenue, expenses, assets and liabilities from its joint venture operations, which reflects the basis on which management makes its operating decisions and performance evaluation.

The adjusted results are not generally accepted measures of financial performance under IFRS. The Company's method of calculating these financial performance measures may differ from other companies and accordingly, they may not be comparable to measures used by other companies. Please refer to the MD&A for a reconciliation of these non-IFRS measures and adjusted results.

Value Enhancement Initiatives

In 2014, the Company continues to pursue a range of strategic initiatives launched in 2013 to strengthen its financial position and operating performance. These initiatives include the following:

- Evolve, Enrich and Extend Strategy. The Company is pursuing a comprehensive initiative to grow its business information operations through an Evolve, Enrich and Extend strategy. The strategy focuses on providing richer content, data and information, related analytics and business and market intelligence, as well as more comprehensive marketing solutions. Through this enrichment, products and services achieve greater customer utility and decision dependence. The strategy is intended to provide growing levels of sales from high-margin products with high levels of recurring revenue, while requiring low levels of sustaining capital investment in order to generate strong free cash flow and return on capital. Management is currently reviewing the spectrum of verticals in which it operates with a view to focusing resources and efforts on those verticals and opportunities deemed to have the greatest growth potential that can be realized through the Evolve, Enrich and Extend program. Management is also using the Evolve, Enrich and Extend strategy to transform the Company's community media operations.

- Revenue Ramp-Up Program. Each of the Company's operating divisions have developed and are implementing comprehensive revenue enhancement plans to generate new incremental revenues through the balance of 2014 and beyond.

- Cost reduction initiatives. A variety of significant cost reduction measures have and are being implemented to reduce overall operating costs. Savings from these initiatives began to be realized in both the third and fourth quarters of 2013 – and continue through the second quarter of 2014, and have resulted in more than $10 million of annual cost reductions. Management has been careful to maintain operating integrity and development spending where growth opportunities exist. The efficiency of these savings has resulted in improved yield in many product areas.

- Sale of real estate assets. The Company has been selling real estate properties to strengthen its financial position. In early 2014, the Company entered into an agreement to sell its vacant real estate property in Kamloops for $4.8 million. This sale will close at the end of August 2014. Other small property dispositions are currently being pursued. Given current capitalization and interest rates, monetizing real estate value to reduce leverage has been deemed prudent.

- Sale of non-core assets. The Company continues to assess the sale of assets that may be considered non-core.

  The real estate and other asset sales have been targeted to a) cover any required deposit relating to the previously reported notice of possible re-assessment from Canada Revenue Agency (CRA) for the 2008-2011 income tax years, should a deposit become payable and b) result in a net reduction of leverage from current levels. Any potential CRA re-assessment timing is not currently determinable.

Business Information

Many of the Company's business information operations (which include business and professional and trade information) continue to grow and provide attractive opportunities for future growth in both existing and new verticals through multi-platform offerings and integrated marketing solutions offerings. In particular, agriculture, environmental risk, environmental compliance, construction and manufacturing, dental services and financial services performed well. Of note, the launch into the United States of the Company's environmental risk mitigation offering and syndication of specialized agricultural data initiatives have performed well.

Business information operations represent more than half of Glacier's EBITDA, of which 45% comes from rich information digital data products. These products provide essential information that generate highly profitable recurring revenues, and are particularly well positioned for scalable growth. The product lines offer resiliency in challenging economic times as they provide critical insight and analysis to Glacier's customers. The Company's short to medium term strategic transformation plans are focused on these high value information products, as well as continuing to develop and offer more comprehensive and sophisticated marketing solutions to business to business customers.

This focus will also include targeting of the global opportunities associated with information services related to the Canadian resources space. Investment will be made where product development can enhance Glacier's Canadian based natural resources products, and generate profitable revenue and return on capital in new international resource areas. Discipline will be taken to develop in areas where competitive advantage and strength can be maintained. The natural resource sectors that Glacier operates in are global in nature, and offer considerable opportunity for growth in shareholder value.

Digital revenues now represent more than one quarter of Glacier's business information revenues. Efforts continue to be refined with respect to developing different types of digital revenues, including content, advertising, comprehensive marketing solutions and subscriptions – supported by modelling and analysis tools. A consistent focus on various ways of enriching content is resulting in improved rates for advertising positioned alongside richer information.

In 2014, Glacier's business information divisions continued their focus on integrated solutions selling and are achieving success with key national clients.

An internal integration framework is being developed to continue to encourage Glacier's management teams in various verticals to remain entrepreneurial and market-focused while working collaboratively to develop more cross-market solutions to enhance the Company's ability to service its key customers and generate additional multi-market revenue.

Overall, the business information operations and various markets offer attractive new opportunities with high levels of profitability – particularly when aligned with Glacier's leading position in key sectors focused on the natural resources economy.

Community Media

In the second quarter, Glacier's community media operations grew more than 10% in adjusted consolidated EBITDA(1).

The growth came from several areas. Comprehensive efforts to generate new products and features have resulted in significant new revenues. Advertisers have shown willing demand to continue to purchase advertising in new print marketing ideas where they see value. Digital revenues continued to grow though a variety of product initiatives targeted to generate high probability of success in sales that are profitable. Operating investments are being made to improve and develop Glacier's digital community media products, launch new products, expand the spectrum of inventory available to clients, and continue to develop internal digital skills and resources.

The previous investment in upgraded print facilities has resulted in significant new revenues and EBITDA. Recognizing the maturing nature of the industry, this printing investment was made to improve quality and lower operating costs for existing Company owned products, and pay for the investment with outside long-term new revenue printing contracts that can deliver an attractive pay-back with maturing revenue assumptions.

Cost reduction programs that were introduced in the second half of 2013 and the first half of 2014 have resulted in significant cost savings. These initiatives have been targeted to reduce costs while maintaining product quality and sales capacity and effectiveness. For example, production in parts of British Columbia has been outsourced off-shore to reduce costs while improving advertiser service through 1) quicker and easier ad turnaround and 2) the ability to offer advertisers a ready-made digital ad with every print ad produced.

Glacier's community media operations offer broad coverage across Western Canada in local markets, and continue to offer a strong value proposition through local information and marketing channel utility. Many of the Company's smaller rural community media markets – largely spread across the Prairies – have enjoyed more steady local performance due to their strong local positions and local advertising revenues, although they are being affected by the factors driving national advertising shifts.

While economic and industry challenges have affected the community media operations, management believes that these businesses have unrealized opportunities available, as is evident from the revenue being generated from new print and digital products, and will continue to generate solid cash flow given the nature of the markets in which Glacier operates – particularly within the more robust micro-economies of Western Canada. This cash flow can be used to repay debt and fund growth through both internal investment and acquisition of high value business information assets.

Glacier's small market community media operations offer a unique selling proposition and competitive advantage through the local information that they provide – of which they are a primary source. The value of community content is provided to readers in print and online, by tablet and smartphone platforms. As described, a number of new print and digital sales products and strategies have been introduced, and new sales and product staff are being hired and technology investments are being made to drive these growth initiatives.

Operational Performance

As stated, for the three months ended June 30, 2014 adjusted consolidated EBITDA increased 12.6% or $1.7 million to $15.1 million, compared to $13.4 million for the same period last year. Glacier's consolidated EBITDA margin, on an adjusted basis, increased to 17.3% for the three months ended June 30, 2014 from 15.0% compared to the same quarter last year. Management is seeking to improve margins and profit performance through product and service evolution and enrichment, multi-platform revenue initiatives, general sales effectiveness efforts, as well as cost reduction measures and other initiatives. The combination of increased sales of higher margin products as well as cost reductions have resulted in the EBITDA growth realized.

Adjusted consolidated revenue was down 2.4% for the quarter. Almost half of the decline in revenue was due to the closure of the Kamloops Daily News and other small publications. The closure of these publications has resulted in increased profitability.

More than $10 million of cost reduction measures have been implemented across a variety of the Company's operations have been designed to be consistent with management's strategy of maintaining strong product and content quality while reducing operating costs through initiatives that do not impact quality, sales capacity or market and competitive positions.

Operating infrastructure and development resource investment continues in both business information and community media areas, including rich information and digital media management, staff, information technology and related resources. A balance is being sought to properly transform Glacier's businesses through a combination of investment in revenue generation, innovation and evolution complemented by prudent cost management.

The complementary media platform and product strategy, which underpins the Evolve, Enrich and Extend strategy, addresses both the risks that digital media represents to the traditional print platform and the opportunities that digital media offers in Glacier's markets. The strategy's premise is that customer utility and value should drive platform utilization and product design and functionality. Online, mobile, tablet and other information delivery devices will be fully utilized, while print content and design quality will also be fully maintained. While digital platforms offer many attractive new opportunities, print platforms continue to offer effective utility to both readers and advertisers. Maintaining strong print products also maintains strong brand image and awareness, which increases the likelihood of success online.

In particular, the Company intends to increase capital allocated to business information acquisitions and organic growth opportunities and use the cash flow generated from community media and business information operations to fund this investment in balance with the priority to reduce debt levels.

Financial Position

On an adjusted basis, to include the Company's share of its joint ventures, Glacier's consolidated debt net of cash outstanding before deferred financing charges and other expenses was reduced to 2.1x trailing 12 months EBITDA as at June 30, 2014.

The Company (excluding its joint ventures) reduced debt by $6.2 million during the quarter. Glacier's consolidated debt net of cash outstanding before deferred financing charges was $87.6 million as at June 30, 2014.

Capital expenditures (excluding its joint ventures) were $0.8 million for the three months ended June 30, 2014 compared to $8.1 million for the same quarter in the prior year. $7.6 million of the capital expenditures made in the second quarter last year were investment capital expenditures, the majority of which related the purchase of a building and building improvements. Management expects the level of investment capital expenditure in 2014 to be significantly reduced.

Declaration of Dividend

The Board of Directors declared a quarterly dividend of $0.02 per share to shareholders of record on September 12, 2014 and payable on October 3, 2014. The dividend is consistent with the Company's dividend policy of paying $0.08 per share per annum, payable quarterly.

Outlook

The Company continues to grow its business operations through its Evolve, Enrich and Extend strategy and is progressing well. Efforts are being made to evolve the community media operations through this strategy as well, while generating as much cash flow as prudently possible. The overall combination of these efforts have allowed growth in the Company's adjusted consolidated EBITDA and margin to be achieved, and contribute to the reduction in leverage.

As indicated, management has undertaken a number of Value Enhancement Initiatives to strengthen the Company's financial position and operating performance in the near term, including a) a wide variety of revenue development initiatives, b) significant cost reduction measures targeted to reduce costs by more than $10 million, c) sale of real estate and non-core assets to reduce leverage and offset a potential tax re-assessment deposit, and d) review of the spectrum of verticals in which the Company operates to focus operating and financial resources on those verticals deemed to have the greatest growth potential. Profitability enhancements and asset sale initiatives are intended to significantly improve Glacier's financial position and place the Company in a better position from which to take advantage of growth opportunities.

Management will focus in the short-term on a balance of paying down debt, reducing costs and improving profitability, enhancing existing operations, targeting select acquisition opportunities and returning value to shareholders through growth in cash flow per share and payment of dividends.

As indicated, significant focus and related investment will continue to be made to enhance Glacier's business information verticals, through both organic development and acquisition. These acquisitions will be targeted to enhance the Company's position in the markets that it covers, expand the breadth of information products and marketing solutions offered where strong sustainable competitive positions are available, and expand Glacier's digital and product development staff, technology and related resources.

Once leverage is reduced to more moderate levels, management will seek an ongoing balance of maintaining debt at those levels and delivering increased value to shareholders through both operations and acquisitions, as well as dividends and share buy-backs.

Jonathon J.L. Kennedy
President and Chief Executive Officer

Second Quarter 2014 Management's Discussion & Analysis ("MD&A")

Forward Looking Statements

In this MD&A, Glacier Media Inc. and its subsidiaries are referred to collectively as "Glacier", "us", "our", "we" or the "Company" unless the context requires otherwise.

The information in this report is as at August 12, 2014.

Glacier Media Inc.'s second quarter 2014 Interim Report, including this MD&A and the accompanying President's Message, contains forward-looking statements that relate to, among other things, our objectives, goals, strategies, intentions, plans, beliefs, expectations and estimates and can generally be identified by the use of statements that include phrases such as "believe", "expected", "anticipate", "intend", "plan", "likely", "will", "may", "could", "should", "would", "suspect", "outlook", "estimate", "forecast", "objective", "continue" (or the negative thereof) or similar words or phrases. These forward-looking statements include, among other things, statements relating to our expectations regarding revenues, expenses, cash flows and future profitability and the effect of our strategic initiatives, including our expectations to grow our business information operations, to implement cost reduction measures, to sell real estate properties and utilize proceeds of such sales to cover required CRA re-assessment deposits, to produce products and services that provide growth opportunities and to launch information products, to organic development and new business acquisitions and to increase capital allocated to such acquisition and growth opportunities, to improve profitability, to grow cash flow per share, to generate sufficient cash flow from operations to meet anticipated working capital, capital expenditures and debt service requirements, to monetize our information and content, to pay dividends, to repurchase shares and to reduce debt levels and as to its expectations as to the level of investment in capital expenditures. These forward looking statements are based on certain assumptions, including continued economic growth and recovery and the realization of cost savings in a timely manner and in the expected amounts, and are subject to risks, uncertainties and other factors which may cause results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, and undue reliance should not be placed on such statements.

Important factors that could cause actual results to differ materially from these expectations include failure to implement or achieve the intended results from our strategic initiatives, the failure to implement or realize cost savings in a timely manner or in the expected amounts, the failure to negotiate or complete the sale of real estate assets, the failure to identify, negotiate and complete the acquisition of new businesses, the failure to develop or launch new products, and the other risk factors listed in our Annual Information Form under the heading "Risk Factors" and in our annual MD&A under the heading "Business Environment and Risks", many of which are out of our control. These other risk factors include, but are not limited to, the ability of the Company to sell advertising and subscriptions related to its publications, foreign exchange rate fluctuations, the seasonal and cyclical nature of the agricultural industry, discontinuation of the Department of Canadian Heritage's Canada Periodical Fund's Aid to Publishers, general market conditions in both Canada and the United States, changes in the prices of purchased supplies including newsprint, the effects of competition in the Company's markets, dependence on key personnel, integration of newly acquired businesses, technological changes, tax risk, financing risk and debt service risk.

The forward-looking statements made in the Company's Interim Report, including this MD&A and the accompanying President's Message, relate only to events or information as of the date on which the statements are made. Except as required by law, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.

The Interim Report and this MD&A and the documents to which we refer herein should be read completely and with the understanding that our actual future results may be materially different from what we expect.

Basis of Discussion and Analysis

The following management discussion and analysis of the financial condition and results of operations of the Company and other information is dated as at August 12, 2014 and should be read in conjunction with the Company's annual consolidated financial statements and notes thereto as at and for the year ended December 31, 2013. These annual consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements include only significant events and transactions affecting the Company during the current fiscal period and do not include all disclosures normally provided in the Company's annual consolidated financial statements. As a result, these condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2013 and related MD&A which can be obtained on the Company's website: www.glaciermedia.ca and on the System for Electronic Document Analysis and Retrieval ("SEDAR"). Interim results are not necessarily indicative of the results expected for the fiscal year.

Non-IFRS Measures

Earnings before interest, taxes, depreciation and amortization, ("EBITDA"), EBITDA margin, EBITDA per share, cash flow from operations, cash flow from operations per share, net income attributable to common shareholders before non-recurring items, and net income attributable to common shareholders before non-recurring items per share are not generally accepted measures of financial performance under IFRS. In addition, certain results in this MD&A stated to be "adjusted" have been presented on an adjusted basis that includes the Company's shares of revenue, expenses, assets and liabilities from its joint venture operations, which reflects the basis on which management makes its operating decisions and performance evaluation. These adjusted measures are also not generally accepted measures of financial performance under IFRS. Management utilizes these financial performance measures to assess profitability and return on equity in its decision making. In addition, the Company and its lenders and investors use EBITDA to measure performance and value for various purposes. Investors are cautioned, however, that EBITDA should not be construed as an alternative to net income attributable to common shareholders determined in accordance with IFRS as an indicator of the Company's performance. The Company's method of calculating these financial performance measures may differ from other companies and, accordingly, they may not be comparable to measures used by other companies. A quantitative reconciliation of these non-IFRS measures is included in the section entitled EBITDA, Cash Flow from Operations and Net Income Attributable to Common Shareholders Before Non-Recurring Items Reconciliation and a reconciliation of the adjusted non-IFRS measures is included in the section entitled Reconciliation of Adjusted Results in this MD&A.

All financial references are in millions of Canadian dollars unless otherwise noted.

Overview of the Business

Glacier Media Inc. is an information communications company focused on the provision of primary and essential information and related services. Glacier is pursuing this strategy through its core business segments: the community media, trade information and business and professional information sectors.

The operations in the community media and trade information group include Glacier FarmMedia (which includes Western Producer Publications, Farm Business Communications and Canada's Outdoor Farm Show), the JuneWarren-Nickle's Energy Group, the Business in Vancouver Media Group, the Business Information Group and the Glacier community media group, which includes direct, joint venture and other interests in community and local daily newspapers and related publications, websites and digital products in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec and the United States.

Glacier's operations in the business and professional information group include Specialty Technical Publishers, Inceptus Media, ERIS, and joint venture and other interests in Fundata, Weather INnovations and InfoMine.

For additional information on Glacier's operations see the Company's Annual Information Form as filed on SEDAR (www.sedar.com).

Significant Developments in 2014 and Outlook

Growth continues to be achieved across many of Glacier's business information verticals. The Company is pursuing a comprehensive strategy to grow its business information operations through an Evolve, Enrich and Extend strategy. This strategy focuses on the provision of richer content, data and information, related analytics and business and market intelligence, and the achievement of greater customer utility and decision dependence. Management is currently reviewing the spectrum of verticals in which it operates with a view of focusing resources and efforts on those verticals and opportunities deemed to have the greatest growth potential that can be realized through this Evolve, Enrich and Extend strategy. Business information operations represent more than half of Glacier's EBITDA. 45% of the Company's business information EBITDA comes from rich information digital data products.

These rich information products provide essential information that generate highly profitable recurring revenues, and are particularly well positioned for scalable growth. The product lines offer resiliency in challenging economic times as they provide critical insight and analysis to Glacier's customers. The Company's short to medium term strategic transformation plans are focused on these high value information products, as well as continuing to develop and offer more comprehensive and sophisticated marketing solutions to business to business customers.

The Company is continuing to develop its business information content and marketing offerings with multi-platform solutions – with a key focus on mobile offerings – digitally designed to integrate more seamlessly with customer decision-making processes. Digital revenues now represent more than one quarter of Glacier's business information revenues. Efforts continue to be refined with respect to developing different types of digital revenues, including content, advertising and subscriptions. A consistent focus on various ways of enriching content is resulting in improved rates for advertising positioned alongside rich information.

Increased digital competition and related structural media changes continue to affect the Company's community media revenues. Economic weakness in some of the areas the Company's community media operations are located in are also affecting performance. Traditional print advertising revenues within the community media operations have been impacted by digital competition, more significantly in larger urban areas, and continue to be weak. Community media revenues were also lower due to the closure of the Kamloops Daily News and other small publications.

The Company's business and professional and trade information revenues continue to be strong in most markets and verticals. Softness in some business and professional and trade information verticals, including mining related products, affected quarter over quarter business and professional and trade information revenues. New revenues continue to be generated in a wide variety of areas, including specialized information delivered online and over mobile and tablet platforms. Other new revenue sources include special publishing initiatives, special features, supplements, new community magazines, production and promotion of community events, custom publishing, sponsored industry specific research studies, educational offerings, conferences and tradeshows, new directories, and a number of other initiatives. Efforts continue to be made to leverage and monetize content across various channels and platforms. Efforts are also being made to improve inter-divisional marketing and branding collaboration to create new organic growth and market opportunities.

The Company's profitability grew for the quarter ended June 30, 2014 as a result of increased revenues from higher margin products and the comprehensive cost reduction measures implemented in 2013 and 2014 to address the revenue softness. Consistent with management's strategy of maintaining strong product and editorial quality while reducing operating costs where possible through initiatives that do not impact quality, sales capacity or market and competitive positions, management is being careful to maintain appropriate levels of resources in staff and technology in order to facilitate long-term revenue growth as the economic situation improves.

Notwithstanding the challenges facing community media, significant growth opportunities are available to Glacier in a variety of business information segments. Consequently, the Company's strategy is to invest cash flow generated from the community media and certain business and professional and trade information operations in both operational opportunities and acquisitions. In particular, the Company intends to increase capital allocated to business and professional and trade information acquisitions and growth opportunities, which includes internal technology investments. In the immediate term the Company is focused on reducing debt to lower levels as a priority.

Operational Performance – Comparable Basis(1)

Management believes that including its share of revenues, expenses and cash flows of its joint venture operations in the Company's results provides a more comprehensive basis for assessing the overall operations of the Company. This is consistent with its historical presentation in accordance with the previously applicable accounting standards that were used prior to January 1, 2013. Management bases its operating decisions and performance evaluation using the adjusted results(1). The following discussion adjusts the Company's reported results under IFRS to include the revenues, expenses and cash flows of its joint ventures.

Adjusted consolidated EBITDA(1) increased 12.6% to $15.1 million for the second quarter of 2014 from $13.4 million in the second quarter of 2013. This profit performance was the result of increased sales of higher margin products and targeted cost reductions, as indicated. The Company has been pursuing these initiatives through a broader strategy of value enhancement initiatives that were initiated in 2013 and continue into 2014. This strategy is geared to evolving and transforming the Company's businesses, increasing profitability and reducing leverage.

For the three months ended June 30, 2014, adjusted net income attributable to common shareholders before non-recurring items increased $1.5 million to $5.9 million from $4.4 million for the same period in the prior year. Adjusted cash flow from operations before non-recurring items increased 8.5% to $14.9 million from $13.7 million for the same period in the prior year.

Adjusted consolidated revenue(1) for the second quarter of 2014 decreased by $2.2 million or 2.4% as compared to the same period in 2013. Almost half of the decline in revenue was due to the closure of the Kamloops Daily News and other small publications. The closure of these publications has resulted in increased profitability. Revenues were also affected by weaker community media revenues, which were impacted by increased digital competition, as well as continued soft economic conditions in some of the community media markets in which the Company operates.

These community media revenue shortfalls were partially offset by higher business information revenues.

Second Quarter Results – Comparable Basis(1)

(thousands of dollars) *except share and per share amounts*	Three months ended June 30, 2014 (1)	Three months ended June 30, 2013 (1)	Six months ended June 30, 2014 (1)	Six months ended June 30, 2013 (1)

Weighted average shares outstanding, net	89,083,105	89,234,311	89,083,105	89,238,682

Notes:

(1) Refer to "Non-IFRS Measures" section for calculation of non-IFRS measures used in this table.

(2) Adjusted 2014 excludes $1.3 million of restructuring expense, $0.5 million of transaction and transition costs, $0.6 million of other income and $0.7 million of other expenses.

(3) For non-recurring items excluded in the prior period, refer to previously reported financial statements.

The main factors affecting the comparability of the results for the quarter:

- Operating performance of the Company's various business units and general market conditions during the reported periods;
- Decreased revenues and expenses primarily due to the closure of the Kamloops Daily News and other smaller publications;

- The acquisition of additional media assets in the second quarter of 2013 by one of the Company's joint ventures;
- Increased revenues and expenses in Great West Newspapers LP, one of the Company's joint ventures, which began printing the Edmonton Journal late in the second quarter of 2013;
- Restructuring expenses including severance payments and transition costs for new acquisitions; and
- The cyclical nature of certain of Glacier's businesses.

Note:

(1) Prior to January 1, 2013 the Company consolidated the financial results of its joint ventures on a proportionate basis in accordance with then applicable accounting standards. Since January 1, 2013, the Company has been required to report the financial results of its joint ventures using equity accounting under the new IFRS accounting standards. The adjusted consolidated financial results reported have been adjusted to reflect the proportionate accounting basis used prior to January 1, 2013 for purposes of comparability in reporting. These results include non-IFRS measures such as EBITDA, cash flow from operations and net income attributable to common shareholders before non-recurring items, and are presented on a basis that includes the Company's share of revenue, expenses, assets and liabilities from its joint venture operations, which reflects the basis on which management makes its operating decisions and performance evaluation.

The adjusted results are not generally accepted measures of financial performance under IFRS. The Company's method of calculating these financial performance measures may differ from other companies and accordingly, they may not be comparable to measures used by other companies. Please refer to the **Reconciliation of Adjusted Results** for a reconciliation of these non-IFRS measures and adjusted results. Management reports its results adjusted to include its share of its joint ventures in the President's Message and in the MD&A under the headings **Operational Performance – Comparable Basis, Second Quarter Results – Comparable Basis** and **Reconciliation of Adjusted Results.**

Second Quarter Results and Overview of Operating Performance

Selected Financial Information

The following outlines selected financial statistics and performance measures for Glacier, on an IFRS basis (other than the non-IFRS measures noted) for the period ended June 30, 2014, and 2013:

(thousands of dollars) *except share and per share amounts*	Three months ended June 30, 2014	Three months ended June 30, 2013	Six months ended June 30, 2014	Six months ended June 30, 2013
Revenue	$ 76,419	$ 80,680	$ 143,634	$ 151,206

Dividends paid per share (5)	$ 0.02	$ 0.02	$ 0.04	$ 0.02
Weighted average shares outstanding, net	89,083,105	89,234,311	89,083,105	89,238,682

Notes:
(1) Refer to "Non-IFRS Measures" section for calculation of non-IFRS measures used in this table.
(2) 2014 excludes $1.1 million of restructuring expense, $0.5 million of transaction and transition costs, $0.6 million of other income and $0.7 million of other expense.
(3) Gross profit for these purposes excludes depreciation and amortization.
(4) For non-recurring items excluded in the prior period, refer to previously reported financial statements.
(5) Dividends in 2014 and 2013 total $0.08 per share, paid quarterly. Dividends in 2013 were declared in March and paid in April.

The main factors affecting the comparability of the results for the quarter:

- Operating performance of the Company's various business units and general market conditions during the reported periods;
- Decreased revenues and expenses primarily due to the closure of the Kamloops Daily News and other smaller publications;
- Restructuring expenses including severance payments and transition costs for new acquisitions; and
- The cyclical nature of certain of Glacier's businesses.

Revenue

Glacier's consolidated revenue for the quarter ended June 30, 2014 was $76.4 million compared to $80.7 million for the same period last year.

Community Media and Trade Information

The community media and trade information group generated $73.5 million of revenue for the period ended June 30, 2014, as compared to $78.1 million for the same period in the prior year. The decrease in revenue during the quarter compared to the same quarter in the prior year was due to softer revenues in the

Company's community media operations, as well as certain trade information verticals. A significant portion of the decline was also due to the closure of the Kamloops Daily News and other smaller publications.

Glacier's community media operations continued to experience softness due to increased digital competition, as well as softer economic conditions in some of the markets in which the Company's operations are located. National advertising, in particular, continues to be affected by the softer economic conditions. A wide array of sales initiatives are being pursued to find new sources of community media revenue. In particular, digital media initiatives resulted in growth in digital community media revenues. New product print advertising revenues also increased significantly on a year over year basis in the community media operations.

The Company's trade information operations continue to perform well. Agriculture, environmental risk, environmental compliance, construction and manufacturing, financial services and a variety of Glacier's other business information verticals continued to experience strong revenue and profitability. Several verticals including mining have shown weaker results consistent with the overall conditions in the markets they operate (the mining sector in both Canada and internationally remains soft). Concerted efforts to grow the Company's business information revenues through its Evolve, Enrich and Extend strategy are proving successful, and resulting in continued growth in the sales of higher margin products and overall trade revenues.

Business and Professional Information

The business and professional group – which includes STP, Inceptus Media, and ERIS - generated revenues of $2.9 million for the quarter ended June 30, 2014, as compared to $2.6 million in the prior year. Inceptus and ERIS generated stronger growth in particular. STP's revenue has been recovering as a result of continued strength in larger electronic network sales, several new environmental content partnerships and a variety of other efforts. Inceptus generated stronger revenues as a result of the launch of a new iPad based medical education product and contracts from new pharmaceutical clients.

ERIS, the Company's environmental risk information business, continues to generate strong growth in revenues. Its expansion into the US market in late 2013 has been well received and is generating significant new sales.

Gross Profit

Glacier's consolidated gross profit, being revenues less direct expenses, for the quarter ended June 30, 2014 was $26.5 million compared to $27.6 million for the same period last year. The decrease in gross profit is largely attributable to the decrease in community media revenues.

Gross profit as a percentage of revenues ("gross profit margin") for the quarter ended June 30, 2014 increased to 34.7% from 34.2% for the same period last year primarily as a result of the sale of higher margin products and the cost reduction initiatives.

General & Administrative Expenses

Glacier's consolidated general and administrative expenses were $15.6 million for the quarter ended June 30, 2014 as compared to $16.6 million for the same period last year. The decrease primarily relates to cost savings initiatives taken in the Company's community media operations and certain trade information sectors.

EBITDA

EBITDA was $10.9 million for the quarter ended June 30, 2014 as compared to $11.0 million for the same period in the prior year. The results are due to the various reasons stated under **Revenue, Gross Profit** and **General & Administrative Expenses**.

Depreciation and Amortization

Depreciation of property, plant and equipment for the three months ended June 30, 2014 decreased $0.2 million as compared to the same period in the prior year. Amortization of intangible and other assets increased $0.3 million for the quarter as compared to the same period in the prior year.

Earnings from Joint Ventures and Associates

Earnings from joint ventures and associates ("equity earnings"), which include the Company's share of Continental Newspapers Ltd. ("Continental"), certain assets acquired from Postmedia, InfoMine Inc. ("InfoMine"), Great West Newspapers Limited Partnership ("GWNLP"), Fundata Canada Inc. ("Fundata"), Rhode Island Suburban Newspapers ("RISN"), and other joint ventures and associates, increased $2.6 million as compared to the same period in the prior year.

Fundata continues to generate strong growth in revenues from its various mutual fund related products and strong market position. GWNLP's revenues have increased significantly from the Edmonton Journal printing contract. Growth in profitability in a number of the other joint ventures and associates have also contributed to the improved earnings performance.

Aggregate operating results for the Company's joint ventures and associates, at the Company's proportionate share of the results, are as follows:

	As at	
(thousands of dollars)	**June 30, 2014**	December 31, 2013
	$	$
Assets	**112,555**	115,289
Liabilities	**48,069**	51,008
Net assets	**64,486**	64,281

	For the three months ended	
	June 30, 2014	June 30, 2013
	$	$
Revenues	**40,656**	36,455
Net income for the period	**4,671**	891
Other comprehensive (loss) income	**(301)**	1,064

Net Income Attributable to Common Shareholders

Net income attributable to common shareholders increased by $3.0 million compared to the same period in the prior year. The increase resulted from i) lower interest expense of $0.3 million, ii) higher other income of $0.1 million, iii) increased income from joint ventures and associates of $2.6 million and iv) decreased income tax expense of $0.7 million. The increase was partially offset by i) decreased operating results of $0.1 million, ii) increased depreciation and amortization of $0.1 million, iii) increased other expense of $0.3 million and iv) increased non-controlling interest of $0.1 million.

Cash Flow from Operations

Glacier's consolidated cash flow from operations was $11.4 million (before changes in non-cash operating accounts and non-recurring items) for the year period ended June 30, 2014 as compared to $11.5 million for the same period in the prior year. The change in cash flow from operations resulted from the factors stated under **Revenue**, **Gross Profit**, **General & Administrative Expenses** and **EBITDA**.

Capital expenditures were reduced significantly to $0.8 million for the quarter ended June 30, 2014 compared to $8.1 million for the same quarter in the prior year. $7.6 million of the prior year capital expenditures were investment capital expenditures, the majority of which related to the purchase of a building and building improvements.

See "**Summary of Financial Position, Financial Requirements and Liquidity**" for further details.

Related Party Transactions

During the quarter ended June 30, 2014, the Company and its affiliates recorded administration, consulting, interest and other expenses of $0.3 million (2013: $0.9 million) from Madison Venture Corporation ("Madison") and its subsidiaries. Madison is a minority shareholder of the Company and certain of its officers and directors are officers and directors of the Company. Madison provides strategic, financial, transactional advisory services and administrative services to the Company on an ongoing basis and received $0.1 million for these services in 2014. These services have been provided with the intention of maintaining an efficient and cost effective corporate overhead structure, instead of i) hiring more full-time corporate and administrative staff and thereby increasing fixed overhead costs and ii) retaining outside professional advisory firms on a more extensive basis. These services were provided in the normal course of operations and were measured at the exchange amount, which represented the amount of consideration established and agreed to by the related parties.

In addition, Madison was required to be the guarantor of a loan relating to the acquisition of interests in certain community newspapers in 2007. During the quarter, $0.2 million of interest was incurred by a subsidiary of the Company in connection with the loan, which interest was paid by Madison and reimbursed by the subsidiary. Madison charges a fee of 50 basis points for the guarantee, which was $17 thousand for the quarter.

Other de-minimis office related expenses were paid to Madison during the quarter in relation to office space shared to reduce expenses. Included in trade payables at June 30, 2014 there was $ nil due to Madison.

As part of the Company's initiatives to dispose of non-core assets to generate funds with which to reduce leverage, the Company sold several real estate properties to an associated entity, Grant Street Properties Inc. ("Grant Street"), in 2013. Glacier retained a minority interest in Grant Street in order to maintain a connection and influence for operational purposes with the properties.

The Company paid rent to an associate, Grant Street Properties Inc. ("Grant Street"), of $0.1 million (2013: $ nil) for leased office space. The rent is charged at market rate. Included in trade payables at June 30, 2014 was $ nil due to Grant Street.

The Company realized $0.5 million of other income related to the sale of a building that was sold to Grant Street in early 2013. Under the terms of the sales agreement Glacier was entitled for a period of time to a share of gains, if any, from the resale of the property by Grant Street. One of Glacier's operations as well as some additional staff occupied the building that was sold. The proceeds from the sale of the building were used by Grant Street to acquire another property that Glacier will occupy with three of its operations and digital staff to realize greater operating efficiencies and collaboration.

The related party transactions have been reviewed by the independent members of the Company's Audit Committee and have been deemed to be fair and incurred in the best interests of the Company and its shareholders.

Summary of Selected Quarterly Results

The following outlines the significant financial performance measures for Glacier for the last eight quarters:

(thousands of dollars) *except share and per share amounts*	Trailing 12 Months	Q2 2014	Q1 2014	Q4 2013	Q3 2013
Revenue	$ 288,051	$ 76,419	$ 67,215	$ 76,076	$ 68,341

Equity attributable to common shareholders	$ 349,843	$ 349,843	$ 348,905	$ 347,705	$ 352,713
Weighted average shares outstanding, net	89,298,090	89,234,311	89,243,102	89,354,650	89,358,410

Notes:
(1) Refer to "**Non-IFRS Measures**" section for calculation of non-IFRS measures used in this table.
(2) 2014 excludes $1.1 million of restructuring expense, $0.5 million of transaction and transition costs, $0.6 million of other income and $0.7 million of other expense.
(3) For non-recurring items in the prior quarters, refer to the prior quarter management discussion & analysis.

The main factors affecting comparability of results over the last eight quarters are:

- Operating performance of the Company's various business units and general market conditions during the reported periods;
- The acquisitions and dispositions made throughout 2013;
- Quarterly fluctuations in restructuring expenses;
- Quarterly fluctuations in transaction and transition costs;
- A goodwill, intangible asset and investment in associate impairment charge of $8.5 million in the fourth quarter of 2012 and $79.0 million in the fourth quarter of 2013;
- Goodwill and intangible asset impairments in certain joint ventures and associates included in equity earnings in the fourth quarter of 2013;

- Other income of $3.1 million in the third quarter of 2012 related to the redemption of miscellaneous investments received in connection with the 2008 Sun Times settlement; and

- The cyclical nature of some of Glacier's businesses.

EBITDA, Cash Flow from Operations and Net Income Attributable to Common Shareholders Before Non-Recurring Items Reconciliation

The following table reconciles the Company's net income attributable to common shareholders as reported under IFRS to EBITDA, cash flow from operations and net income attributable to common shareholders before non-recurring items.

(thousands of dollars)	**Three months ended**		**Six month ended**

Reconciliation of Adjusted Results

The following table reconciles the Company's results as reported under IFRS to the results presented on an adjusted basis that includes the Company's shares of revenue, expenses, assets and liabilities from its joint venture operations, which reflects the basis on which management makes its operating decisions and performance evaluation.

	Three months ended June 30, 2014			Three months ended June 30, 2013

Notes:
(1) Refer to "Non-IFRS Measures" section for calculation of non-IFRS measures used in this table.
(2) Adjusted 2014 excludes $1.3 million of restructuring expense, $0.5 million of transaction and transition costs, $0.6 million of other income and $0.7 million of other expenses.
(3) Gross profit for these purposes excludes depreciation and amortization.
(4) For non-recurring items excluded in the prior period, refer to previously reported financial statements.

Summary of Financial Position, Financial Requirements and Liquidity

Glacier generates sufficient cash flow from operations to meet anticipated working capital, capital expenditures, and debt service requirements.

As at June 30, 2014, Glacier had consolidated cash and cash equivalents of $6.2 million, current and long-term debt of $93.8 million before adjustment for deferred financing fees attributable directly to the issuance of long-term debt, and working capital of $26.9 million excluding deferred revenue. Glacier's actual cash working capital is greater than reflected by the amounts indicated on the consolidated balance sheet due to deferred revenue relating to quarterly updates, renewals and newspaper subscriptions that have been paid for by subscribers but not yet delivered; and the costs associated with the fulfillment of this liability are less than the amount indicated in current liabilities as Glacier receives cash revenue on an ongoing basis that offsets the deferred revenue liability.

Capital expenditures were $0.8 million for the quarter ended June 30, 2014 compared to $8.1 million for the same quarter in the prior year. $7.6 million of the prior year capital expenditures were investment capital expenditures, the majority of which related to the purchase of a building and building improvements.

Changes in Financial Position

	For the three months ended		For the six months ending	
(thousands of dollars)	**June 30, 2014**	June 30, 2013	**June 30, 2014**	June 30, 2013
Cash generated from (used in)				
Operating activities	**7,873**	11,083	**10,018**	17,907
Investing activities	**1,945**	(6,978)	**4,019**	(6,989)
Financing activities	**(9,580)**	(4,301)	**(14,770)**	(8,439)
Increase (Decrease) in cash	**238**	(196)	**(733)**	2,479

The changes in the components of cash flows during the 2014 and 2013 are detailed in the consolidated statements of cash flows of the financial statements. The more significant changes are discussed below.

Operating Activities

Glacier generated cash from operations before non-recurring items and changes in non-cash operating accounts of $11.4 million compared to $11.5 million for the same period in the prior year as a result of the factors stated under **Revenue**, **Gross Profit**, **General & Administrative Expenses** and **EBITDA**. Cash flows from operations before non-recurring items and after change in non-cash working capital was $8.5 million compared to $11.9 million for the same period in the prior year.

Investing Activities

Cash generated by investing activities totalled $2.0 million for the three months ended June 30, 2014 compared to $7.0 million used for the same quarter in 2013. Investing activities included $0.5 million of investment capital expenditures, $0.3 million of sustaining capital expenditures, distributions received of $2.7 million and other investing activities.

Financing Activities

Cash used for financing activities was $9.6 million for the period ended June 30, 2014 compared to $4.3 million for the same period in 2013. The Company made net debt repayments of $6.2 million for the quarter ended June 30, 2014 compared to $0.5 million for the same period in the prior year. In the three months ended June 30, 2014, the Company distributed $0.5 million to its minority partners (non-controlling interests), paid $1.2 million in interest and $1.8 million of dividends.

Outstanding Share Data

As at June 30, 2014 and August 12, 2014, there were 89,083,105 common shares and 1,115,000 share purchase warrants outstanding.

The warrants outstanding allow the holder to purchase one common share per warrant at $4.48 per share. The warrants expire on June 28, 2019, unless extended. The warrants were extended during the quarter ended June 30, 2014; previously they were set to expire on June 28, 2014.

Contractual Agreements

As at June 30, 2014, Glacier has agreements with a syndicate of major Canadian banks whereby the lenders provided a single revolving loan facility with no required principal repayments during its term. During the quarter ended June 30, 2014, the Company extended this facility to July 4, 2015. The Company also has additional long-term debt with a major international bank which is held by ANGLP and is non-recourse to the Company.

Subsequent to June 30, 2014, the Company completed an amendment to its current revolving loan facility extending it to September 30, 2016. Under the terms of the amendment, a portion of the revolving facility was converted to a term facility and all other terms were substantially the same as under the existing agreement.

The Company has also entered into operating leases for premises and office equipment, which expire on various dates up to 2023.

In summary, the Company's contractual obligations due over the next five calendar years, are as follows:

(thousands of dollars)	Total	2014	2015	2016	2017	2018	Thereafter
Long-term debt	93,503	3,376	6,702	82,771	79	83	492
Operating leases	24,953	2,872	4,528	3,929	3,686	2,990	6,948
	118,456	6,248	11,230	86,700	3,765	3,073	7,440

Under various financing arrangements with its banks, the Company, its subsidiaries, and its affiliates are required to meet certain covenants. The Company, its subsidiaries, and its affiliates were fully in compliance with these covenants at June 30, 2014 and June 30, 2013.

Financial Instruments

The Company's activities result in exposure to a variety of financial risks, including risks relating to foreign exchange, credit, interest rate, and liquidity risk.

A small portion of the Company's products are sold at prices denominated in U.S. dollars or based on prevailing U.S. dollar prices while the majority of its operational costs and expenses are incurred in Canadian dollars. An increase in the value of the Canadian dollar relative to the U.S. dollar reduces the revenue in Canadian dollar terms realized by the Company from sales made in U.S. dollars. The Company also has investments in self-sustaining operations in the United States, whose earnings are exposed to foreign exchange risk.

The Company has in the past hedged a portion of its foreign exchange exposure with financial forward contracts. As at June 30, 2014, the Company did not have any foreign exchange forward contracts.

The Company sells its products and services to a variety of customers under various payment terms and therefore is exposed to credit risks from its trade receivables from customers. The Company has adopted policies and procedures designed to limit these risks. The carrying amounts for trade receivables are net of applicable allowances for doubtful accounts, which are estimated based on past experience, specific risks associated with the customer and other relevant information. The Company is protected against any concentration of credit risk through its products, broad clientele and geographic diversity.

The Company's interest rate risk mainly arises from the interest rate impact on cash and floating rate debt. The Company actively manages its interest rate risk through ongoing monitoring of market interest rates and the overall economic situation. In the past, the Company had entered into five year amortizing interest rate swap contracts with fixed interest rates and variable acceptance fees.

The fair value of exchange contracts represents an estimate of the amount that the Company would receive or pay if the contracts were closed out at a market price on the balance sheet date. The Company concluded that those contracts do not qualify for hedge accounting; therefore, changes in fair value of the contracts are recorded in the statement of operations each period.

The Company is exposed to liquidity risk with respect to trade payables, long-term debt, derivatives and contractual obligations. The Company manages liquidity by maintaining adequate cash balances and by having appropriate lines of credit available. In addition, the Company continuously monitors and reviews both actual and forecasted cash flows. Management believes that future cash flows from operations and the availability under existing banking arrangements will be adequate to support its financial liabilities.

The carrying value of certain financial instruments maturing in the short-term approximates their fair value. These financial instruments include cash and cash equivalents, trade and other receivables, trade payables, dividends payable, and other current liabilities. The fair value of the other financial instruments is determined essentially by discounting cash flows or quoted market prices. The fair values calculated approximate the amounts for which the financial instruments could be settled between consenting parties, based on current market data for similar instruments. Consequently, as estimates must be used to determine fair value, they must not be interpreted as being realizable in the event of an immediate settlement of the instruments. For fair value estimates relating to derivatives and available-for-sale securities, the Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of the inputs used in making the measurements. The fair value of all of the Company's available for sale financial instruments was determined using quoted prices in active markets.

Business Environment and Risks

A comprehensive discussion of Risks and Uncertainties was included in the 2013 Annual Report and can be found on SEDAR.

Disclosure Controls and Internal Controls over Financial Reporting

The Company has established disclosure controls and procedures to ensure that the information disclosed in this MD&A and the related financial statements was properly recorded, processed, summarized and reported to the Audit Committee and the Board.

The Company did not make any changes to its internal controls over financial reporting ("ICFR") during the most recent period ended June 30, 2014 which materially affected, or are reasonably likely to materially affect, the Company's ICFR.

Future Accounting Policies

In May 2014, the IASB issued IFRS 15, Revenue from Contracts with Customers, which will supersede IAS 18. The new standard is effective for annual periods beginning on or after January 1, 2017. The Company is still in the process of assessing the impact, if any, on the financial statements of this new standard.

Critical Accounting Estimates

The preparation of the annual consolidated financial statements in conformity with International Financial Reporting Standards requires management to make estimates and assumptions that affect the amounts recorded in the consolidated financial statements. Management regularly reviews these estimates, including those related to useful lives for depreciation and amortization, impairment of long-lived assets, certain trade receivables, pension and other employee future benefit plans based on currently available information. While it is reasonably possible that circumstances may arise which cause actual results to differ from these estimates, management does not believe it is likely that any such differences will materially affect Glacier's financial position.

(Unaudited)

1. General business description

Glacier Media Inc. ("Glacier" or the "Company") is an information communications company providing primary and essential information and related services through print and digital media. Glacier is pursuing this strategy through its core business segments: the Community Media and Trade Information, and Business and Professional sectors.

The Company is incorporated under the Canada Business Corporations Act, with common shares listed on the Toronto Stock Exchange ("TSX"). The address of its head office is 2188 Yukon Street, Vancouver, British Columbia.

2. Basis of preparation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim consolidated financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2013, which have been prepared in accordance with IFRS as issued by the IASB.

These consolidated financial statements have been approved by the Board of Directors for issue on August 12, 2014.

3. Significant accounting policies

The principal accounting policies adopted in the preparation of these condensed interim consolidated financial statements are the same as those applied to the consolidated financial statements for the year ended December 31, 2013. The policies applied are based on the International Financial Reporting Standards issued and outstanding as at the date the board of directors approved these consolidated financial statements.

4. New accounting standards

The Company adopted IFRIC 21, Levies ("IFRIC 21") on January 1, 2014 with retrospective application. IFRIC 21 provides guidance on the accounting for a liability to pay a levy, if that liability is within the scope of IAS 37, Provisions, Contingent Liabilities and Contingent Assets. Levies are imposed by governments in accordance with the legislation and do not include income taxes, which are accounted for under IAS 12, Income Taxes or fines or other penalties imposed for breaches of legislation. The interpretation was issued to address diversity in practice around when the liability to pay a levy is recognized. An example of a common levy is property taxes.

The adoption of IFRIC 21 did not affect the Company's financial results or disclosures as our analysis determined that no changes were required to the existing accounting treatment of levies.

5. Accounting standards issued but not yet applied

In May 2014, the IASB issued IFRS 15, Revenue from Contracts with Customers, which will supersede IAS 18. The new standard is effective for annual periods beginning on or after January 1, 2017. The Company is still in the process of assessing the impact, if any, on the financial statements of this new standard.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

6. Critical accounting estimates and judgements

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim consolidated financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2013.

7. Investments in joint ventures and associates

The Company's share of the joint ventures and associates consists of the following:

(thousands of dollars)	**As at and for the period ended June 30, 2014**	As at and for the year ended December 31, 2013
	$	$
Balance, beginning of period	**108,539**	114,222
Investments in joint ventures and associates	**48**	5,775
Share of earnings for the period	**4,269**	468
Share of other comprehensive income for the year (net of tax)	**(300)**	1,535
Distributions and dividends received and other equity movements	**(4,989)**	(6,448)
Impairment of investment in associate	**-**	(7,013)
Balance, end of period	**107,567**	108,539

8. Property, plant and equipment

		As at June 30, 2014	
(thousands of dollars)	**Cost**	**Accumulated depreciation**	**Carrying amount**
	$	**$**	**$**
Land	**7,635**	**-**	**7,635**
Buildings	**15,495**	**(2,097)**	**13,398**
Production equipment	**47,600**	**(27,111)**	**20,489**
Office equipment and leaseholds	**24,980**	**(18,229)**	**6,751**
	95,710	**(47,437)**	**48,273**

		As at December 31, 2013	
(thousands of dollars)	Cost	Accumulated depreciation	Carrying amount
	$	$	$
Land	7,635	-	7,635
Buildings	15,434	(1,849)	13,585
Production equipment	47,418	(25,906)	21,512
Office equipment and leaseholds	24,721	(17,081)	7,640
	95,208	(44,836)	50,372

The Company has classified certain land and building assets with a carrying value of $3.0 million as held-for-sale. These assets are recorded at their carrying value as the fair value less cost to sell is greater than the carrying amount. These assets are no longer being amortized.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

9. Intangible assets

The Company has various intangible assets including customer relationships, subscription lists, mastheads, software, web sites, copyrights and trademarks. Of these, certain mastheads and trademarks are considered to have an indefinite life and are therefore not amortized. Intangible assets are as follows:

		As at June 30, 2014	
(thousands of dollars)	**Cost**	**Accumulated amortization**	**Carrying amount**
	$	**$**	**$**
Indefinite life			
Mastheads and trademarks	**71,441**	**-**	**71,441**

Software and websites	18,118	(13,283)	4,835
	162,454	(51,435)	111,019

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

10. Long-term debt

The Company has the following long-term debt outstanding:

(thousands of dollars)	**As at June 30, 2014**	As at December 31, 2013
	$	$
Current		
ANGLP non-recourse debt	**6,667**	6,667
Mortgages and other loans	**69**	66
	6,736	6,733
Non-current		
Revolving bank loan	**77,500**	82,000
ANGLP non-recourse debt	**8,781**	12,102
Mortgages and other loans	**486**	553
	86,767	94,655
	93,503	101,388

Changes to the Company's debt obligation were as follows:

(thousands of dollars)	**As at June 30, 2014**	As at December 31, 2013
	$	$
Balance, beginning of period	**101,388**	124,388
Proceeds from additional borrowings	**-**	3,832
Financing charges	**(5)**	203
Principal portion of finance lease payments	**-**	(660)
Repayment of debt	**(7,880)**	(26,375)
Balance, end of period	**93,503**	101,388

Under various financing arrangements with its banks, the Company is required to meet certain covenants. The Company was in compliance with these covenants at June 30, 2014 and December 31, 2013.

Subsequent to June 30, 2014, the Company completed an amendment to its current revolving loan facility extending it to September 30, 2016. Under the terms of the amendment, a portion of the revolving facility was converted to a term facility and all other terms were substantially the same as under the existing agreement.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

11. Other comprehensive (loss) income

The components of other comprehensive (loss) income are as follows:

(thousands of dollars)	Accumulated other comprehensive loss: Equity Securities classified as available for sale	Accumulated other comprehensive loss: Cumulative Translation Adjustment	Accumulated other comprehensive loss: Total	Retained earnings: Actuarial gains (losses) on defined benefit plans	Retained earnings: Total	Non-controlling interest	Total comprehensive loss
	$	$	$	$	$	$	$
Balance, December 31, 2013	(805)	(122)	(927)	394	394	(25)	(558)
Actuarial gain on defined benefit plans	-	-	-	(913)	(913)	(32)	(945)
Unrealized loss on available-for-sale investments	(86)	-	(86)	-	-	(3)	(89)
Share of other comprehensive income from joint ventures and associates	-	-	-	(291)	(291)	(9)	(300)
Other comprehensive (loss) for the period			(86)		(1,204)	(44)	(1,334)
Balance, June 30, 2014	**(891)**	**(122)**	**(1,013)**	**(810)**	**(810)**	**(69)**	**(1,892)**
Balance, December 31, 2012	(395)	(125)	(520)	(7,894)	(7,894)	(269)	(8,683)
Actuarial loss on defined benefit plans	-	-	-	3,483	3,483	110	3,593
Unrealized loss on available-for-sale investments	(254)	-	(254)	-	-	(8)	(262)
Share of other comprehensive income from joint ventures and associates	-	-	-	1,174	1,174	38	1,212
Other comprehensive income (loss) for the period			(254)		4,657	140	4,543
Balance, June 30, 2013	(649)	(125)	(774)	(3,237)	(3,237)	(129)	(4,140)

Other comprehensive (loss) income items that do not recycle through the consolidated statement of operations in future periods are recorded directly in retained earnings.

Other comprehensive (loss) income items are reported net of the following tax effects:

(thousands of dollars)	For the three months ended June 30, **2014**	For the three months ended June 30, 2013	For the six months ended June 30, **2014**	For the six months ended June 30, 2013
			$	$
Income tax effect of:				
Actuarial gain (loss) on defined benefit plans	**(310)**	(416)	**356**	(1,218)
Unrealized loss on available-for-sale investments	**9**	13	**13**	38

12. Income taxes

Income tax expense is recognized based on management's estimate of the weighted average annual income tax rate expected for the full financial year. The estimated average annual rate used for the three months ended June 30, 2014 was 26.0% (2013: 26.0%). The components of income tax expense are shown in the following table:

(thousands of dollars)	Three months ended June 30, **2014**	Three months ended June 30, 2013	For the six months ended June 30, **2014**	For the six months ended June 30, 2013
	$	$	**$**	$
Current tax	**-**	-	**-**	-
Deferred tax	**1,604**	2,268	**2,024**	2,414
Income tax expense	**1,604**	2,268	**2,024**	2,414

As at June 30, 2014, the Company has available non-capital losses and unclaimed tax credits which may be used to reduce future Canadian income taxes otherwise payable.
Refer to note 18.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

16. Related party transactions

In addition to other related party disclosures in the consolidated financial statements, the Company has the following related parties with which it completed transactions:

(a) During the quarter ended June 30, 2014, the Company and its affiliates recorded administration, consulting, interest and other expenses of $0.3 million (2013: $0.9 million) from Madison Venture Corporation ("Madison") and its subsidiaries. Madison is a minority shareholder of the Company and certain of its officers and directors are officers and directors of the Company. Madison provides strategic, financial, transactional advisory services and administrative services to the Company on an ongoing basis and received $0.1 million for these services in the quarter ended June 30, 2014. These services have been provided with the intention of maintaining an efficient and cost effective corporate overhead structure, instead of i) hiring more full-time corporate and administrative staff and thereby increasing fixed overhead costs and ii) retaining outside professional advisory firms on a more extensive basis.

These services were provided in the normal course of operations and were measured at the exchange amount, which represented the amount of consideration established and agreed to by the related parties. The Company also shares office space and purchases group insurance with Madison to reduce costs. In addition, Madison was required to be the guarantor of a loan relating to the acquisition of interests in certain community newspapers in 2007.

The expenses for the related party transactions include:

	Three months ended June 30,		**For the six months ended June 30,**	
(thousands of dollars)	**2014**	2013	**2014**	2013
	$	$	**$**	$
Interest (i)	**154**	227	**323**	475
Consulting and administration fees (ii)	**73**	77	**211**	190
Office, telephone and other (iii)	**59**	93	**86**	127
Directors fees (iv)	**13**	25	**26**	38
Insurance (v)	**-**	431	**-**	431
	299	853	**646**	1,261

(i) For the quarter ended June 30, 2014, $0.2 million (2013: $0.2 million) represents interest expense incurred by a subsidiary company on its borrowings, which was paid by Madison and reimbursed by the subsidiary. Due to the nature of the subsidiary financing, Madison is the direct and guarantor borrower for these borrowings. Madison charges a fee of 50 basis points for the guarantee, which was $17 thousand for the quarter.

(ii) Consulting and administration fees are charged by Madison for services related to transaction work, tax and financial planning, strategic planning and administration and are at rates consistent with those charged by third parties for similar services.

(iii) Certain of the Company's officers and management shared office space with Madison during the year and paid fees related to their proportionate share of the utilities, telephones and other office services.

(iv) The Company paid directors fees to Madison for the Company's non-management directors who are shareholders of Madison. These fees are the same as those for the independent directors.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

16. Related party transactions (continued)

(v) The Company purchased its general liability insurance in conjunction with Madison in order to obtain lower rates as part of a larger group and the Company reimbursed Madison for its proportionate share of the insurance.

Included in trade payables at June 30, 2014 was $ nil due to Madison.

(b) The Company paid rent to an associate, Grant Street Properties Inc. ("Grant Street"), of $0.1 million (2013: $ nil) for leased office space. The rent is charged at market rate. Included in trade payables at June 30, 2014 was $ nil due to Grant Street.

As part of the Company's initiatives to dispose of non-core assets to generate funds with which to reduce leverage, the Company sold several real estate properties to an associated entity, Grant Street, in 2013. Glacier retained a minority interest in Grant Street in order to maintain a connection and influence for operational purposes with the properties.

In March 2014, the Company realized $0.5 million of other income related to the sale of a building that was sold to Grant Street in early 2013. Under the terms of the sales agreement Glacier was entitled for a period of time to a share of gains, if any, from the resale of the property by Grant Street. One of Glacier's operations as well as some additional staff occupied the building that was sold. The proceeds from the sale of the building were used by Grant Street to acquire another property that Glacier will occupy with three of its operations and digital staff to realize greater operating efficiencies and collaboration.

The related party transactions have been reviewed by the independent members of the Company's Audit Committee and have been deemed to be fair and incurred in the best interests of the Company and its shareholders.

(Amounts in tables expressed in thousands of Canadian dollars, except share and per share amounts)
(Unaudited)

17. Segment disclosure

The Company and its subsidiaries operate in two distinct operating segments throughout Canada and the United States. These segments are the business and professional market that Specialty Technical Publishers ("STP"), Inceptus Media and ERIS and Fundata operate in and the community media and trade information market in which the rest of Glacier's businesses operate. All of the Company's assets are located in Canada except the assets of a joint venture located in the United States.

The chief operating decision maker reviews operating results and bases decisions on the actual economic interest in its joint ventures. Therefore, the Company presents its segments based on its adjusted results which include its share of the revenues, expenses, assets and liabilities from its joint ventures. A reconciliation of the segment disclosure to the statement of operations and balance sheet is provided below.

The following segment information is as at June 30, 2014 and December 31, 2013 and for the periods ended June 30, 2014 and 2013:

18. Contingency

In March 2013, an affiliate of the Company received correspondence from Canada Revenue Agency ("CRA") proposing to issue a notice of reassessment with respect to the utilization of non-capital losses by the affiliate, pertaining to taxation years 2008, 2009, 2010 and 2011. The Company believes that it has reported its tax position appropriately. No provision has been made in these consolidated financial statements for additional income taxes, if any, which may be determined to be payable on ultimate resolution of this matter. Should CRA issue the notice of reassessment, the Company's affiliate would be obligated to pay an initial payment of fifty percent of the reassessed tax amount plus penalties and interest, in conjunction with appealing the reassessment. The Company believes its affiliate has substantial defences in response to the matters raised by CRA and would vigorously appeal any reassessment. The initial payment upon appeal, as well as the proposed reassessment by CRA, if upheld, would have a material impact on the Company's consolidated financial statements and cash flows. Notwithstanding, the Company's affiliate has the financial capacity to pay such amounts, if any. The likely timing to ultimately resolve this matter may take years. As of August 12, 2014, there has been no change in the status of this matter.

Board of Directors
